MINUTES OF BLACKFOOT M.D. MEETING

SIXTH MEETING 1925

Minutes of the regular meeting of the Council of the Blackfoot M.D. No. 218 held in the Municipal office on Tuesday, June 9th, at 10 a.m.

Present: Reeve Thorsen, Deputy-Reeve McBean, and Councillors, Daw, Rasmussen, Dunstan and Maynard.

The secretary reported that all the instructions given at last meeting had been carried out.

Owing to the temporary absence of Councillor Rasmussen the resolution of the reeve regarding a road policy that had been left over from the last meeting was allowed to stand over until latter in the day.

A letter was read from R. V. Potter of Calgary in which he complained of the bad condition of some roads near the hamlet of Chancellor. Coun. Dunstan stated that certain culverts and fills were necessary and that he had made provision in his estimates to have these attended to. The secretary was instructed to notify Mr. Potter.

The road commissioner reported that the Department of Public Works had returned the signed agreement re the market road grant together with plans and specifications as to how this market road was to be constructed. A letter was also received from the Department in which it was stated that these plans and specifications must be strictly adhered to otherwise the grant would be withheld until such time as the road was brought up to that standard.

Coun. Maynard: That the accounts as O.K'd by finance committee be paid. Carried.

The secretary asked the advice of the council regarding a certain Mr. McCallum who requested relief to the extent of his transportation and hotel expenses to his former home in Edmonton. It appears that this party has been living in this municipality for about six weeks, that he is about 75 years old, is destitute and in poor health.

Coun. Dunstan: That the secretary be instructed to purchase him a ticket to his former home in Edmonton and furnish him with sufficient cash to pay his hotel expenses to that point, the total sum not to exceed fourteen dollars. Carried.

The resolution regarding the road policy was then taken up. The Reeve asked the privilege of altering certain clauses in his original motion and this was agreed to. The amended resolution then read as follows:

Whereas it is in the best interest

of the municipality to have uniform roads and a general defined road policy for all districts within the municipality and

Whereas this system was recommended by the taxpayers at their annual meeting held on the 21st of February last,

Therefore be it resolved:

1. That we appoint a road commissioner, whose advice and services shall be at the disposal of the various councillors.

2. That each councillor shall be required to submit an estimate of the expenditure for road construction in his division for the year and that such estimate shall be placed before the council not later than the third regular meeting of the new council.

3. That no councillor shall undertake any work except of an emergency nature not outlined in such estimate.

4. That such estimate shall first make an allowance of a sum sufficient to cover the maintenance of all roads in his division on which money had been expended in previous years giving the location thereof, and shall thereafter state location of new work proposed to be done, the nature thereof, the materials to be used, the size, number and location of culverts required, together with the approximate cost in each case.

5. That all roads to be graded shall be laid out a uniform width of 20 feet unless otherwise specified by the government engineer and all roads graded hereafter shall be properly backfilled where practicable.

6. That all accounts for work done shall be at least 18 feet in the clear, the culverts in every case to be covered by at least six inches of compacted soil.

7. That all wooden culverts shall be built according to a plan approved of by a majority of the whole council and kept on file in the municipal office.

8. That all accounts for work done shall be made out on forms provided therefore and shall before being submitted to the council for authorization of payment comply with the following regulations:

- (a) The foreman shall secure the signature of the worker certifying that the amount allowed on these is correct.

- (b) The back of the form so provided shall show the location, nature, cost of each different mile of road worked and the total amount shown shall agree with the total amount shown on the face thereof.

Coun. Dunstan: That the amended resolution be adopted. Carried.

Coun. Dunstan: That the following

TRAIL RANGERS ATHLETIC TOURNAMENT

The local Trail Ranger Camp ran off their tournament on Monday evening. Ten boys took part. The leaders were as follows:

Younger boys standing broad jump: Pat Beach 6 ft. 6 1/2 in.; Hugh Hamar 6 ft. 3 1/2 in.; Gerald Yates 6 ft. 2 1/2 in.

Older boys: Hugh Beach 7 ft. 6 in.; Frank Pobst 6 ft. 10 1/2 in.; Bill Taylor 6 ft. 3 1/2 in.

Run ing broad jump younger boys: Pat Beach 12 1/2 ft.; Hugh Hamar 11 1/2 ft.; Ian Maclean 10 1/2 ft.

Older boys: Hugh Beach 13 1/2 ft.; Bill Taylor 12 1/2 ft.; Frank Pobst 12 1/2 ft.

Fifty-yard dash, older boys: Hugh Beach 7 seconds; Frank Pobst 8 sec.

Younger boys: Hugh Hamar and Pat Beach tie 9 sec.; Ian Maclean 10 seconds.

100 yards, older boys: Hugh Beach 13 1/2 seconds; Frank Pobst 14 1/2 sec.; Bill Taylor 14 1/2 seconds.

Younger boys: Hugh Hamar 10 sec.; Pat Beach 17 seconds

Half-mile, older boys: Hugh Beach 3 min., 55 sec.; Frank Pobst 2:57; Bill Taylor 2:59

Younger boys: Pat Beach 3:26; Elmer Saunders 3:27; Malcolm Brown 3:29.

High jump, older boys: Hugh Beach 4 1/2 ft.; Frank Pobst 4 1/2 ft.

Younger boys: Pat Beach 4 1/2 ft.; Ian Maclean 4 ft.; Elmer Saunders 3 7/8 ft.; Gerald Yates 3 7/8 ft.

In running and jumping program our local boys are competing in a nation wide tournament under the management of the Canadian Standard Efficiency Training, better known as the C.S.E.T.

Prospects for a bumper crop this year were never brighter.

ing pay-sheets be passed and ordered paid:

Division 1, \$523.00; Division 2, \$85.00; Division 3, \$15.00; Division 4 \$140.50 and Division 5 \$11.00. The motion carried

Coun. McBean: That we instruct the secretary to bill Messrs. Edw. Christesen and Geo. B. Nygard with one half the amount paid for drawing the agreement regarding the draining of the slough on the S. E. 19 and S. W. 20 in 24-21-4. Carried.

The attention of Councillors Dunstan and Rasmussen was drawn to the fact that their estimates exceeded their appropriations. These councillors agreed to have the matter attended to and to return their estimates as soon as possible.

(Continued next issue)

KNIGHTS OF PYTHIAS INSTALL OFFICERS

Over forty attended the installation of officers of Golden Jubilee Lodge, Knights of Pythias, Monday evening, when Acting G. C. McArthur and Acting G. P. R. F. McCullough, of Calgary, were assisted by A. M. at A. J. C. Wainwright, A. K. of R. and S. G. H. Farquharson, most impressively installed the following officers for the current year.

C. C., Geo. Bell.
V. C., J. Barron.
Prelate, G. Risvold.
M. of W., W. McConnell.
K. of R. and S., A. V. Cocks.
M. of F., J. Ralston.
M. of E., H. Sammons.
M. at A., J. A. Renaud.
I. G., Ken. McPhee.
O. G., H. Bowen.

Trustees: A. Wertz, S. J. Hedges and W. P. Evans.

Two degrees were also exemplified that night. There being four candidates for first and ten for the second degree.

The Bow Valley U.F.A. and U.F.W. A. convention held in Meadow Brook Hall last Friday proved a great success and was well attended, although the rain that afternoon stopped the Milo baseball club from attending and many others in town. It was understood Hon. Geo. Headley was to speak in the evening, but he spoke in the afternoon much to the disappointment of those who could have been present. A report of the day's program has not yet reached the Call.

U.F.A. SUNDAY CHURCH SERVICE

The third Sunday in June is the official U F A Sunday. It has not been found possible to hold a service in the afternoon, so in the place of this a service will be held in the Meadowbrook Community Hall at the usual service hour in the evening—seven-thirty. The evening service in the United Church will be closed down. The minister, choir and congregation will meet with the U F A in the above hall where there will be a combined service. Cars will leave the church at a quarter to seven for the convenience of those who have no car or other way of getting out. The general public are cordially invited to attend this service.

Born to Mr. and Mrs. C. Williams, a boy, at the home of Mrs. Pobst, on Monday, June 15th.

Residents of Township 20 and 21 Range 24, W. of 4th, are advised that the property of the Municipal District of Dinton, consisting of iron posts woven wire, etc., for use in Rabbit Drives has been allotted for use in said township during the last ten days of next December. Ratepayers wishing to stage rabbit drive

apply for use of outfit naming dates wanted to H. H. Wilson, Sec-treas. No. 189, Blackie, or to Councillor Walter McHugh, R1412, P. O. Box 85 Carleton Place.

Messrs Burr and Rishaug have opened up their new Mechanics Garage on Crowfoot Street and already

have prospects of a fair business. These two men are both well known throughout the district and none will question their ability as mechanics. You will not require your glasses to see what the Ramsay Mercantile have to tell you in this issue.

WORLD HAPPENINGS
BRIEFLY TOLD

Germany's reparations payments through the office of the agent totalled 100,000,000 marks during May.

The Free State Government has decided to take part in the movement for popularizing Ireland as a tourist resort.

A total of 589,254 spectators, 150,681 of whom were headhunts, attended the Olympic Games last summer, according to official figures.

The Hon. Henry Cockshutt, lieutenant-governor of Ontario, has been elected director of the Canadian Pacific Railway vice Sir Edmund Osler, deceased.

The first Baron Macdonnell, of Swinford, died June 9 in London, aged 81. He will be remembered chiefly for his tenure of office as under secretary for Ireland from 1902 to 1908, when he was Sir Anthony Macdonnell.

Official circles categorically denied the recent report emanating from Paris to the effect that a number of young Germans were enroute to Morocco to become officers under Abd-el-Krim in his war against the French.

Colonel James A. Logan, American observer on the reparations commission in Paris, has resigned for "personal and business" reasons, and his resignation has been accepted by Secretary Kellogg.

The Latvian Parliament has passed a law forbidding the sale of alcoholic drinks at educational institutions, at theatres, exhibitions, fairs, in provision shops, on board vessels in inland waters, on railway trains and in railway stations.

Moving with unexpected speed, the Belgian Government informed the state department, Washington, that it would send a commission the latter part of July to negotiate a funding settlement of its debt to the United States.

Convicts at Sing Sing who can afford it are permitted to have radio apparatus in their cells. About a dozen have taken advantage of the privilege to have whole sets installed and some sixty others have had extension pieces connected with these sets.

T. D. Brown, K.C., of Regina, has been declared elected to the one vacancy on the senate of the University of Saskatchewan, Saskatoon, which was not filled by acclamation this year. He defeated J. E. Bryant, of Regina, and will represent the city of Regina.

Protection for Irish home industries, introduced in the last budget by the Free State finance minister, avowedly as an experiment to see whether it worked and whether it warranted a permanent place in the government's policy, is said to have proved successful.

Decrease In Drug Addicts

Medical Care Instead of Prison Term Is Advocated

There has been a distinct decrease in the number of drug addicts in Canada in the last two years, according to a paper prepared by F. W. Cowan, superintendent of the federal health department, Ottawa, and read by Chief W. C. Crabb, of Welland, Ont., at a session of the 21st annual convention of the Chief Constables' Association of Canada.

The paper contradicted the commonly held theory that use of narcotics caused crime. Narcotic drugs tended to make the addict, if he turned to crime, a criminal of the sneak thief type, and not of the aggressive bandit type. The number of young women and men becoming addicts was on a very definite decrease.

Mr. Cowan advocated medical care and treatment for the addicts rather than prison cells.

Cost Of Shipping Important

Information About B.C. Mines Wanted By British Capitalists

"It is not enough to tell us that you have minerals in your province. Tell us what it will cost to bring them to the market. That is the deciding factor in the development of all properties in these words Sir John Davies, of Swansea, one of Great Britain's leading industrialists, advised directors of the British Columbia chamber of mines of the most effective method of bringing British capital into the development of the British Columbia mineral resources.

Wheel Chair Tourist

James Thompson, an invalid for 16 years, is propelling his way across the country from Clovis, N.M., to New York, in a wheel chair. On arriving at Indianapolis he said he sometimes makes 25 miles a day with the assistance of lifts from trucks.

W. N. U. 1581

From Down-By-The-Sea

H. B. Anslow, Director of the C.W.N.A. for the Maritime Provinces, and Proprietor of The Graphic, Campbelltown, N.B. Mr. Anslow will attend the C.W.N.A. Convention at Winnipeg, on June 24, 25 and 26.

To Eliminate Poison Gas

Canada Favors Idea of a Conference To Be Held At Washington

Canada at Geneva rallied to the idea of a conference to be held in Washington with a view to outlawing the use of poison gas in warfare, the suggestion having been advanced by T. E. Burton, the United States representative at the present conference on the control of arms. Canadian delegate, Dr. W. A. Riddell, supported the proposal of Mr. Burton. He recalled the fact that it was the Canadian troops—the first Canadian division, who had stood the first shock of poison gas when it was projected from the German trenches at Ypres, in April, 1915, thus emphasizing Canada's interest in any movement that would have for its aim the suppression of this method of warring.

Thrilled by eloquent appeals from Paul Boncour, France, and Mr. Burton, the conference, at a memorable session, went on record in favor of the immediate framing of a special protocol by which the use of asphyxiating gas in war time heretofore would be outlawed.

The protocol will be open to signature by all nations. Mr. Burton laid stress on the urgency of doing something definite now to register condemnation of the barbarous poison gas warfare. But he said that if this was found impossible, he was authorized to announce that the president of the United States would be glad to extend an invitation for the convocation of a special conference in Washington.

War Widow Receives Long Missing Locket

Keepsake Worn By Husband In War Returned to Winnipeg Woman

A little gold locket, pathetic in its broken condition, and still bearing verdigris caused by years of exposure on the battlefields of France, has come back home at last. In September, 1918, it hung round the neck of Mrs. S. J. Bevan, of Winnipeg, and enclosed tiny snapshots of her husband and baby girl, Harriet. Today it is in Mrs. Bevan's possession again, but the clasp is gone and the photographs are stained and weather-worn. The baby girl is eight years old, and the father who wore the locket joined the ranks of the heroes who fell at Vimy Ridge. Almost nine years from the day she last saw it, the locket arrived by registered mail, accompanied by a note from the Dominion department of national defence. The letter explained that the keepsake and the pictures had been forwarded from the Imperial graves commission to Ottawa, to be sent on to their owner. They had been found on the battlefield, it said. Clearly discernible on the back of the snapshots, themselves blurred almost beyond recognition, are the words, "Baby Bevan," and Mr. Bevan's name and regimental number. He was with the 1st C.M.R's.

Monoplane Turns Over

A monoplane operated by the Fairbanks aeroplane corporation, carrying three passengers and a crew of two, was damaged when it made a landing recently at Ruby, Alaska. The plane was enroute from Fairbanks to Nome. The machine turned over, but no one was hurt, and the passengers continued their journey down the Yukon River by gasoline launch.

American-Born Canadians

According to the figures of the last Canadian census there are 374,024 residents of Canada who were born in the United States, of whom 237,994 are naturalized Canadians. Of the total of American-born, 244,065 are to be found in Western Canada.

The income tax has been abolished in Newfoundland.

Hope Still In Surgery

Little Yet Known Regarding the Cause and Cure of Cancer

When radium first came to the attention of the medical profession, great hopes were excited as to its powers for the curing of cancer. Those hopes have not been disappointed wholly, and the use of the strange substance for this purpose continues, with beneficial effects in cases where the revolt of the cells is only beginning. When it has gone far, however, the results are poor or nil—at best a mere delaying of the fatal termination.

This was admitted in the course of the discussion of cancer, at the annual convention in Atlantic City of the American Medical Association. There the consensus of opinion was that early application of the surgeon's knife is still the one trustworthy treatment for this most terrible of human scourges.

Cancer has been the subject for years, now, of careful study, by highly competent researchers, working with all the resources of science, but they have attained as yet cruelly little knowledge as to either the cause or the cure of the malady. None of them claims more than to have learned that cancer, or susceptibility to cancer, is hereditary to some extent and runs in families—which formerly was denied—and that local irritations of many kinds determine the place of its occurrence. That is something, but it is hardly more than a basis for further investigation.

Meanwhile, the number of cancer victims steadily increases, but the reason for that probably is merely that it is a disease chiefly of rather advanced years, and more people than formerly, thanks to decreased mortality from other diseases, especially the infective fevers, reach those years. We all must die of something, and if we escape the maladies of youth we succumb to those of old age, of which cancer is one.—New York Times.

Lord Birkenhead Writes Articles For Magazines

Makes No Secret of Receiving £12,000 Yearly For Writings

As a result of criticisms of Lord Birkenhead, secretary of state for India, for writing for the press while he is a minister of the crown, a cabinet committee is now engaged in preparing a report as to the position of the ministry towards members thereof who make excursions into journalism.

Lord Birkenhead makes no secret of the fact that his writings, which appear voluminously in Sunday journals, bring in £12,000 a year. As a member of the government he receives £5,000 per annum.

The Daily Mail says it understands that any decision on the part of the Baldwin cabinet to prohibit members of the government from writing for personal profit would invariably be followed by the resignations of the ministers affected.

Amendment To Criminal Code

Tips on Horse Racing Are Now Banned By Law

An amendment to the Criminal Code prohibiting the publication of racing tips, selections, odds, or any similar intelligence on horse races, except of the premises of an association during a race meeting, was given second reading and put through the committee stage with practically no discussion, in the House of Commons. In addition to prohibiting the publication of racing news, the amendment also prohibits the circulation of information intended for use in connection with betting upon fights, games, sports, or races other than horse racing.

The Struggle For Life

An ornithologist recently, in no spirit of levity, made a statement that human life would disappear after five years if the untold myriads of insects were not kept down by their enemies, the birds. Great businesses thrive on fighting insects, and no year passes unless some new problem is brought to light. Bugs attack not only the animate, but the inanimate necessities of life and cause losses to forest, field and home.—Louisville Courier Journal.

U.S. Gift At Peace Palace

A statue of Justice, the gift of the United States Government, has been received at the Peace Palace, The Hague, and has been placed under the dome over the grand staircase.

The statue is the work of Andrew O'Connor, of Paxton, Mass. A formal presentation is to be made shortly by Richard M. Tobin, American minister to the Netherlands.

The opulent-looking lady sank into a seat, "I want a Louis XIV. style shoe," she ordered.

The clerk brought one and tried it on. "No," said the customer. "It's too small. I'd better have a Louis XV."

ECLIPSE FASHIONS
Exclusive Patterns
by Hazel Bayne

A Nightgown That Is Practical As Well As Dainty

Almost every home sewer delights in making her own dainty undergarments. There are so many beautiful lingerie materials in the shops that there is no difficulty in finding the right material, whether it be fine nainsook, silk mull, French volles, cotton crepe or crepe-de-chine. The gown illustrated is very easily made. It may be finished at neck edge and armholes with narrow binding and tied together on shoulders with narrow ribbon bows. The pattern includes a berth which may be of all-over lace if a more trimmed garment is desired. No. 1029 made in sizes 36, 40 and 44 inches bust. Medium size requires 3 1/2 yards of 36-inch material without the berth; 5 1/2 yards more with berth.

By Motor To Hudson Bay

Unique Plan Proposed To Use Railway Lines For Motor Cars For Tourists

A procession of tourists driving into the picturesque northland on their own family motor cars, fitted with flanged rims to grip the rails of the Hudson's Bay line, is the ingenious scheme proposed by R. M. Haultain, a railway construction engineer of Winnipeg.

Mr. Haultain believes that such traffic over the government railway will present no difficulties. To obviate any danger of accidents, he would placard the line to the effect that the odd days of the month would be reserved for northbound traffic and the even days for southbound. Each car would be required to carry a light derailing shoe to provide for emergencies.

The investment on the part of the railway company in flanger rims, trailers, steering gear locks, etc., would be negligible, declared Mr. Haultain, when compared with the increased revenue obtained from freight cars to different points along the Hudson's Bay line.

Mr. Haultain has complete confidence in the feasibility of the scheme and maintains that the north country would ultimately become the mecca of sport lovers and attract tourists to the profitable advantage of the Canadian National system. The line could be placed in the revenue-producing class as the "World's Most Unique Motor Highway," he contended. Mr. Haultain proposes to submit his idea to the railway authorities.

An Ambitious Mushroom

A Nantucket mushroom with a yearning for the sunshine has proved a wonder. A hump was noticed in the concrete walk on Independence Lane. A few days later the surface of the walk was found to be broken. Examination revealed a mushroom, about five inches in diameter, which had forced its way up through two inches of solid concrete.

Birds are wise. They build a new house every spring instead of carrying out the furnace ashes.

To Locate At Winnipeg

Residence of Board of Grain Commissioners To Be Changed

The residence of the board of grain commissioners was changed from the head of the lakes to Winnipeg when the agriculture committee of the House of Commons amended the residence clause in the Canada Grain Act. There was considerable discussion and a majority of the committee favored the change.

Hon. Dr. R. J. Manion, Conservative, Fort William, protested strongly against the recommendation to move the board of grain commissioners from the head of the lakes to Winnipeg, pointing out that Winnipeg was only an exchange and that grain was only inspected there. At the head of the lakes, however, stated Dr. Manion, grain is weighed, stored, hospitalized, trans-shipped and finally inspected into boats.

Hon. W. R. Motherwell, minister of agriculture, disagreed with Dr. Manion. The proper place, he contended, for the location of the board of grain commissioners was at Winnipeg. Mr. Motherwell declared that ninety per cent. of the disputes occurred in Winnipeg and the vicinity.

Hon. T. A. Cregar also took issue with Dr. Manion. The only sensible place, he contended, for the board to be stationed was at Winnipeg.

Auto Plane Is New Racer

London Has a Hybrid Craft to Try For Speed Laurels

A new racing apparatus is being shown at London with which it is hoped to make world records on land. It is a miniature automobile-aeroplane. The front part is that of a motor car, with two wheels on the ground, while the rear is designed along the lines of a flying machine.

This hybrid affair has a powerful engine in front and gets its driving power through the wheels. The body tapers in stream-line form, which ends in a vertical rudder much like that of an aeroplane, and with several curved horizontal surfaces like the elevators of a heavier-than-air craft.

Standing, the apparatus rests upon its two front wheels, with tail drooping behind, supported by one rear wheel. When it begins to move rapidly the air pressure under the rear elevators causes the tail to lift itself off the ground and sail through the air.

The chauffeur steers by a combination of gears on wheels and the rudder arrangements on the tail.

U.S. Bars Canadian Indians

New Ruling Serious to Those On Coast Reservations

Transportation officials at Victoria were surprised by an announcement from United States immigration officers there that aboriginal inhabitants of Canada were to be treated with the class of races not eligible to American citizenship, and therefore, not admissible to the United States. It was stated that intimation of the new order from Washington had come through to the commissioner of immigration in Seattle.

The result of this ruling is that the right exercised from immemorial days of Indians crossing the border freely has been suspended.

Following the United States announcement, W. E. Ditchburn, Indian commissioner, wired Ottawa, and pointed out how serious the embargo would be to the Indians on the coast reservations and asked that the matter be taken up in Ottawa and representations made to Washington.

New Grain Inspection District

Moose Jaw To Be Made A Grading Point This Fall

The Federal Government intend to create a new grain inspection district at Moose Jaw.

At the present time there are but two inspection and grading points on the prairies—Winnipeg and Calgary. A third, it is said, will be set up at Moose Jaw this autumn.

The cost of creating such an organization will be not less than \$80,000. As most of this is represented in salaries the annual expenditure would be about the same.

Urges Intimate Business Relations

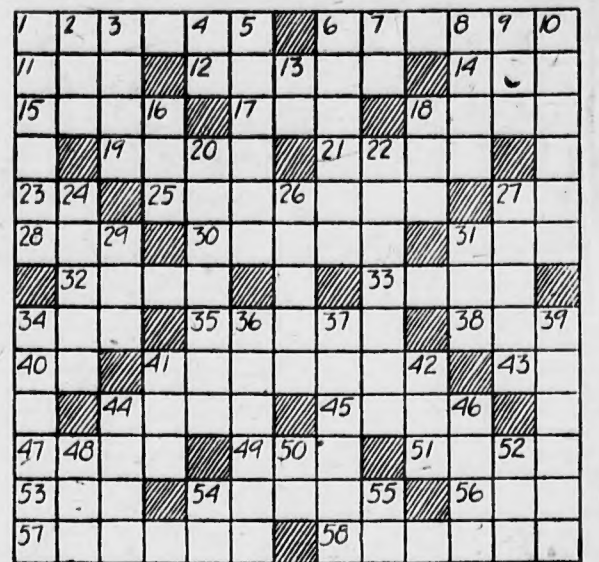

The need of more intimate business relations between Britain and Canada and more British capital invested in the Dominion was stressed by F. W. Field, His Majesty's trade commissioner in Canada and Newfoundland, in a speech delivered at the Victoria Square Empire Day celebration.

Contracts For Warships

Contracts for Australia's two 10,000-ton cruisers and two submarines, have been placed in Great Britain, the amount aggregating £3,500,000.

Take heart. People never knock unless they envy, and they never envy their inferiors.

OUR CROSSWORD PUZZLE

Horizontal

- 1—Most contemptible.
- 6—Male cat.
- 11—Be all.
- 12—System.

Algarsson Abandons North Pole Flight

May Try Next Year If Given Financial Support

Grettit Algarsson has definitely abandoned his flight to the North Pole for this year owing to the lateness in the delivery of his airship, according to Commander Worsley, the second in command. "We now propose," says Commander Worsley, "to proceed to Spitzbergen to carry out geographical and scientific work there in the hope of obtaining information about air currents and data as to conditions preparatory to a flight next year. The British Columbian airman needs more financial support if the expedition is to have any hope of success next year or indeed if it is to be undertaken at all.

Communists In Britain

Only 5,000 Professed Reds In British Isles

Although a certain section of the press give lurid accounts of British Communist congress held at Glasgow, other sections announce that the whole Communist movement in Great Britain has only 5,000 professed adherents, whose actions are followed with tolerant amusement by the ordinary working man and scornful contempt by the old-fashioned trades' unions leaders. The speeches at this convention appear to have followed lines already familiar to the public. One orator, a Greenock boy of 12 years of age, headed his Greenock contemporaries and proudly announced that they comprised the vanguard of a "revolutionary army."

Eating Up Our Income

More Than One Quarter of Earnings Go For Food

North Americans literally eat up their income. Ten years ago one-fifth of one's earnings was deemed sufficient for food. Today the figure has risen to 27 per cent.—more than one-fourth.

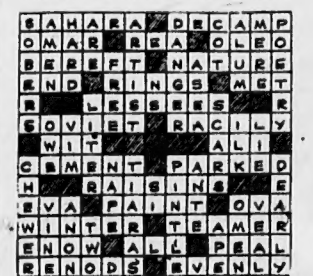

Last year, says Dr. Paul H. Nyström, head of the Retail Research Association, the total estimated income on this continent was 68 billion dollars. Almost half went to retail stores. More than 18 billions went for food; tobacco and soft drinks.—Vancouver World.

Illuminated Animals At Wembley

The illuminated animals at Wembley on the lawns are a quaint innovation. There is a vicious-looking crocodile with a most baleful gleam in his electrical eyes, huge toads, and glowing squirrels that scamper up a tree. But the affections of the young visitors will centre in the illuminated white rabbit. He is quite jolly enough to hug and not rather alarming like the crocodile.

Olive trees more than 1,000 years old are found on the island of Mallorca.

Answer To Last Week's Puzzle

New Mounted Police Post

Administering the Law in the Northern Parts of Canada

George P. MacKenzie, formerly gold commissioner in the Yukon Territory, will be in charge of the party going north this summer under the direction of the department of the interior on board the Arctic.

The Arctic will pay the usual visits to the northern outposts, and will carry Mounted Police to relieve those patrols which have been in the north since last year.

The department will continue to carry on the work of administration of the northern islands, and a new post will probably be established on Ellesmere Island.

For Fish Culture

Federal Government Votes Money For Fish Propagation

A vote of \$370,000 for fish culture was carried in the House of Commons. In addition to a number of other items, including \$30,000 for the building of fishways and clearing waters, \$95,000 to assist in the conservation and development of deep sea fisheries, \$2,000 for the maintenance of the fisheries intelligence bureau, and \$40,000 to provide for investigations into practical and economic problems connected with fisheries.

Nothing Coming To Him

A man once rented a plot of ground to a negro neighbor, upon which corn was to be planted, and at harvest time the renter was to receive one-fourth of the yield. Meeting the negro during harvest time, he asked: "Look here, Sam, have you harvested the corn?"

"Yes, sah, boss, long ago!" "Well, wasn't I to get one-fourth?" "Yes, boss, that's the truth, but there wasn't no fourth! Der was jes, three loads, and dey was mine."

Farmers To Benefit

Ontario farmers benefit to the amount of about \$42,500 annually through the reduction made by the provincial government of the interest rate on farm loans from a 6 to 5 1/2 per cent. rate now in effect. Farm loans are affected to the amount of \$8,500,000.

A French doctor has made 16 successful transfusions of animal blood into

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
In the title role, is an adaptation of this thrilling novel.

CHAPTER XX.—Continued

"If they so much as put a shot across my bows, up goes their Deputy-Governor to the yardarm. Your only hope, Colonel, lies in the fact that I shall send them word of that intention. And so that you may mend as far as you can the harm you have done, it's yourself shall bear them the message, my lord."

"I'll see you damned before I do," fumed his lordship.

"Why, that's unreasonable and un-

Weak, Lost In Weight

—Levy's Studio

WM. E. BRUSH

Windsor, Ont.—"For over six months I was in ill health—I was not able to do a day's work. I got very weak and lost in weight, could not eat, suffered from poor circulation, chilly all the time and had a slight cough. I doctored but still kept going down and everyone thought I was going into a decline. I finally began taking Dr. Pierce's Golden Medical Discovery and thru the use of this medicine I was completely restored to good health. I gained in weight, my circulation improved and I could eat. Then I went back to my work and never felt better. I have been a strong and healthy man ever since, which I owe to Dr. Pierce's Golden Medical Discovery."—William E. Brush, 450 Douglass Ave.

All druggists, liquid or tablets. Write Doctor Pierce's Invalids' Hotel, Buffalo, N.Y., for free medical advice, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ont.

W. N. O. 1578

kindly—if it's only in her prayers. That's all, my lord."

Lord Julian held out his hand. "I wonder whether you are right," said his lordship, "and whether you are not the better man."

"Where she is concerned see that you make sure that I am right. Good-bye to you."

The Arabella sailed within the hour, moving lazily before a sluggish breeze. The fort remained silent and there was no movement from the fleet to hinder her departure.

CHAPTER XXI.

War

Five miles out at sea from Port Royal, whence the details of the coast of Jamaica were losing their sharpness, the Arabella hove to, and the sloop she had been towing was warped alongside.

Captain Blood escorted his compulsory guest to the head of the ladder. Colonel Bishop breathed freely at last.

"A safe voyage home to you, Colonel, darling," said he in valediction, and from his easy, smiling manner you would never have dreamt of the pain he carried in his breast.

On the mole at Port Royal, under the low, embattled wall of the fort, Major Mallard and Lord Julian waited to receive him, and it was with infinite relief that they assisted him from the sloop.

"Anyway, it's not for long," growled the Colonel, finding speech at last. "No, by . . ." He emphasized the assurance by an unprintable oath. "If I spend the last shilling of my fortune and the last ship of the Jamaica fleet, I'll have that rascal in a hempen necktie before I rest." He had emphasized in his angry vehemence, and the veins of his forehead stood out like whipcord. "Come, my lord. We must take order about this, you and I."

They went off together, skirting the redoubt, and so through courtyard and garden to the house where Arabella waited anxiously. The sight of her uncle brought her infinite relief, not only on his own account, but on account also of Captain Blood.

"You took a great risk, sir," she gravely told Lord Julian after the ordinary greetings had been exchanged. But Lord Julian answered her as he had answered Major Mallard. "There was no risk, ma'am. So that Blood's ship was allowed to pass the fort, no harm could come to Colonel Bishop. Blood pledged me his word for that."

Very early next morning, before the heat of the day came to render the open intolerable to his lordship, he espied her from his window moving amid the azaleas in the garden. He hurried forth to join her. He explained himself by the announcement that he bore her a message from Captain Blood.

reasoning. But if ye insist, why, another messenger will do as well, and another hostage aboard—as I had originally intended—will make my hand the stronger."

"Aye, in God's name, go, my lord," spluttered Bishop, "and make yourself obeyed."

Lord Julian bowed stiffly to the cowering Deputy-Governor. "You understand, sir, that I do as you desire," he said coldly.

"Aye, man, aye!" Bishop assented hastily.

"Very well," Blood escorted Lord Julian to the entrance ladder at the foot of which still swung the Arabella's own cock-boast.

"It's good-bye, my lord," said Blood. "And there's another thing." He proffered a parchment. "It's the commission. Bishop was right when he said it was a mistake."

"I am sorry," Lord Julian said sincerely. "I still do not perceive—blisters me if I do!—why you should not have found someone else to carry your message to the Commandant, and kept me aboard as an added hostage for his obedience to your wishes."

Blood's vivid eyes looked into the other's that were clear and honest, and he smiled, a little wistfully. A moment he seemed to hesitate.

"Why shouldn't I tell you? It's the same reason that's been urging me to pick a quarrel with you so that I might have the satisfaction of slipping a couple of feet of steel into your vitals. When I accepted your commission, I was moved to think it might redeem me in the eyes of Miss Bishop—for whose sake, as you may have guessed, I took it. But I have discovered that such a thing is beyond accomplishment. I should have known it for a sick man's dream. I have discovered also that if she's choosing you, as I believe she is, she's choosing wisely between us, and that's why I'll not have your life risked by keeping you aboard whilst the message goes by another who might bungle it. And now perhaps ye'll understand."

"And you tell me this?"

"I tell you because . . . Oh, plague on it!—so that ye may tell her; so that she may be made to realize that there's something of the unfortunate gentleman left under the thief and pirate she accounts me, and that her own good is my supreme desire. Knowing that, she may . . . faith, she may remember me more

"My life's happiness hangs upon your answer."

"He desired me," he said at last, "to give you a message that should prove to you that there is still something left in him of the unfortunate gentleman that . . . that . . . for which once you knew him. It is not easy. Stab me, it is not. He was a man who deserved well. And

PIMPLES WERE VERY PAINFUL

On Forehead, Cheeks and Chin. Cuticura Heals.

"My face began breaking out with pimples, first my forehead, then cheeks and chin, and it was an awful looking sight. The pimples were hard and red and after a time came to a head and scaled over. They were very painful at times and the trouble lasted about three months."

"I tried different remedies without any benefit. I began using Cuticura Soap and Ointment and I was completely healed after using three cakes of Cuticura Soap and one box of Cuticura Ointment." (Signed) Mrs. Algot Lundgren, McCord, Wis., Aug. 12, 1924.

Use Cuticura for all toilet purposes. Sample Book Free by Mail. Address: Canadian Branch, The Cuticura Shaving Stick 25c.

amongst us we have marred his chances; your uncle, because he could not forget his rancour; you because . . . because having told him that in the King's service he would find his redemption of what was past, you would not afterwards admit to him that he was so redeemed. And this, although concern to rescue you, was the chief motive of his embracing that same service."

She had turned her shoulder to him so that he should not see her face. His lordship's unusual nervousness was steadily increasing. "He thought, then—so he told me—that my presence here had contributed to his inability to redeem himself in your sight; and unless he were so redeemed, then was redemption nothing."

"He thought that you had contributed?" she echoed.

"Aye, and he said so in terms which told me something that I hope above all things, and yet dare not believe, for, God knows, I am no coxcomb Arabella. He said . . . I had gone aboard his ship to demand the instant surrender of your uncle. He laughed at me. Colonel Bishop should be a hostage for his safety. By rashly venturing aboard his ship, I afforded him in my own person yet another hostage as valuable at least as Colonel Bishop. Yet he bade me depart; not from the fear of consequences, for he is above fear, nor from any personal esteem for me whom he confessed that he had come to find detestable; and this for the very reason that made him concerned for my safety."

"I do not understand," she said, as he paused. "Is not that a contradiction in itself?"

"It seems so only. The fact is, Arabella, this unfortunate man has the temerity to love you."

She cried out at that, and clutched her breast whose calm was suddenly disturbed. "Go on," she bade him.

"Well, then; he saw in me one who made it impossible that he should win you—so he said. Therefore he could with satisfaction have killed me. But because my death might cause you pain, because your happiness was the thing that above all things he desired, he surrendered that part of his guarantee of safety which my person afforded him. If his departure should be hindered, and I should lose my life in what might follow, there was the risk that . . . that you might mourn me. Because of that he bade me leave his ship, and had me put ashore." She looked at him with eyes that were awash with tears. "Was he right, Arabella? My life's happiness hangs upon your answer."

(To be continued)

WHEN BABY IS ILL

When the baby is ill; when he cries a great deal and no amount of attention or petting makes him happy. Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are absolutely guaranteed to be free from opiates and narcotics and can be given to even the newborn babe with perfect safety and always with beneficial results. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Well Known Woman Inventor

Has Organized Company to Manufacture Labor-Saving Devices.

Women as inventors have applied for more patents in England during the last few months than at any other period in history. Most of these devices are labor-saving machines for use in the ordinary household where there are no servants. Among them is an electrical dish washing machine which will clean the dishes of a family of 12 within a few minutes at the cost of one-twelfth of an English penny.

One of the best known British woman inventors is Mrs. E. M. Bolton, member of a family of inventors, and who recently organized a company which will manufacture labor-saving devices. She is a grand niece of Sir Humphrey Davy, who conceived the miner's safety lamp. One of her inventions is a complete laundry which may be operated by a housewife who has no maid, without getting so much as even a drop of water on her fair hands.

For Aches and Pains Use Minard's Liniment

Many Homesteads Taken Up

100,000 Acres Homesteaded During First Three Months of This Year.

Approximately 100,000 acres were homesteaded in the four western provinces during the first three months of this year, with 620 persons filing. Saskatchewan got the largest proportion of these settlers, while Alberta was second with 227, Manitoba third with 80 and British Columbia last with 27. During the first quarter of the year 100 soldier grants also were taken up, representing 7,000 acres.

Pain In The Muscles, Stiffness In Joints,

Quickly Subdued By Nerville

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerville. It's because Nerville penetrates so deeply, because it has about five times the strength of the ordinary oily preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerville works wonders. A trial proves this. Get a 35 cent bottle from your dealer to-day.

Socialism and Capitalism

The Dreamers Who Would Upset the Present Social Order

If there were no need of betterment there would be no need of politics. But it is a long leap from the proposition that capitalism has not produced an earthly paradise to the proposition that it must therefore be replaced by a totally different system founded on a theory of which nothing is known but that its champions disagree among themselves as to what it means, and that the attempt to put one version of it into practice has resulted in a frightful national catastrophe.—London Daily Telegraph.

She Was Obligated To Take To Her Bed

Then Mrs. J. Derocher Used Dodd's Kidney Pills

Quebec Lady Suffered From Kidney Trouble and Found Complete Relief In Dodd's Kidney Pills.

South Stukely, Que.—(Special).—That relief can be obtained from all kinds of kidney disorders by using Dodd's Kidney Pills is again evidenced by the testimonial received from Mrs. J. Derocher, a well known and highly respected resident of this place. She writes:

"I was attacked with a malady that at first I did not think was serious until about the beginning of last March, when it became evident that I could do nothing. I consulted a doctor and he told me I was suffering from kidney trouble."

"I was obliged to take to my bed. I had a Dodd's Almanac in the house and read a few of the testimonials, then bought 3 boxes of Dodd's Kidney Pills and a box of Diamond Dinner Pills."

"I can assure you that they have made me well, and the pain in my back between the shoulders is gone. I am completely relieved of my trouble."

Mineral Deposits In Antarctic

But No Vegetation That Will Maintain Animal Life

Rich mineral deposits exist in the Antarctic, according to a New Zealand whaling fleet which recently returned from the Ross Sea. He reported that although coal and other minerals were found in the Ross Dependency, there was no prospect of establishing any industry there. There is no vegetation to maintain animal life.

That's Why

"How did you like your new rooms?" "All right, except that the man across the hall is learning to play the flute."

"You ought to get a saxophone."

"I did; that's why he got the flute."

Proverb Amended

Mrs. A.—You can't judge people by their clothes, you know.

Mrs. B.—At any rate, not until you see their family wash out on the line.

As a vermicide an excellent preparation is Mother Graves Worm Exterminator. It has saved the lives of countless children.

Dogs May Bathe

There is now no excuse for Munch dogs going about dirty. A public bath for dogs has been established and is open daily from 8.30 a.m. to 7 p.m.

Fraser Canyon Road

The Fraser Canyon road, which will complete the trans-provincial highway, linking with the western prairies, will be completed soon.

For Aches and Pains Use Minard's Liniment

Another Old Custom Passes

Whip-Women Of London Leave Old Covent Garden

The whip-women of Covent Garden are going to abandon the precincts of this famous produce market for the same reason that the village blacksmith is becoming an automobile salesman. The whip-women are among the picturesque denizens that go along with this most picturesque market square, and for the last 800 years an unbroken line of members of their families have checked the whips of the produce growers who frequent this market.

This concession of whip checking, which has supported many families for so long a time, was granted to six ancestors of the present-day whip-women in the sixteenth century when Covent Garden was really a convent garden of the Monks of Westminster outside which the farmers brought their garden truck to sell.

In that century half a dozen whip-women took charge of the whips of the farmers to keep them from the hands of thieves, and collected a penny from the owner at the end of the day. The number of whip-women has grown to 12 because some women left their share of the concessions to two daughters, but even though the price of checking whips is now threepence, the whip-women of today cannot make a living, they say.

Iodine Is Rarest Of Human Elements

Body Contains But One Five-Thousandth Of An Ounce

There is only a tenth of an ounce of iron in the human body, yet that small quantity is essential to life. But compared with iodine, iron is an abundant human element, writes Dr. Milo Hastings, of New York. The amount of iodine in a healthy human is about one five-thousandth of an ounce. Counting ten million people in New York and vicinity this would give us about a hundred pounds of iodine for the community. One man could carry the iodine for the whole ten million of us—but if we let him do so, the other 9,999,999 of us would promptly die.

This sound like a lot of fool theory—but it is as well proved as any fact known to the science of life and health. This minute quantity of iodine is contained in our thyroid gland, and because of it that gland performs its function of controlling the growth and normal development of body and mind.

Making Bank Of England Notes

Whole Process Is Surrounded By the Greatest Privacy

The manufacture of the paper from which Bank of England notes are made is surrounded by the greatest privacy. This paper has been made in the same factory, at Laverstoke, Hampshire, for over two hundred years. It is prepared entirely by hand from specially selected rags, and is washed and re-washed in spring water used for no other purpose. The formula of the ink used in printing the notes is known to only half-a-dozen people. The chief ingredient is charcoal obtained by smoke-drying the wood of Rhinsh vines. Each note costs the bank roughly a penny to produce, and the average period of circulation is two and a half months. About 60,000 of the notes are printed daily, while every year nearly 20,000,000 old notes are collected and destroyed.

Effects Of Bad Temper

Increases Amount of Sugar In Blood and Causes Muscular Intoxication

Bad temper, an eminent pathologist has discovered, has the strange effect of increasing the amount of sugar in the blood by 10 per cent. to 20 per cent. In the course of a few minutes. That is why an angry man wants to fight the object of his rage. He becomes hot-blooded because the accession of carbonaceous material intoxicates his muscular system. The strange thing is that this rapid change is due to a tiny gland about the size of a pin. When it functions normally a person remains calm and even-tempered. If the essence exudes too lavishly, hatred, passion and quarrels ensue.

Alberta Oats For New Zealand

Nearly a quarter of a million bushels of oats grown in Alberta, were shipped to New Zealand last winter for seed purposes, according to a bulletin issued by the provincial department of agriculture.

The Proper Time

Grandma.—"I'm afraid you'll be late at the party."

Little Girl.—"Oh, you dear grandma! Don't you know that in our set, nobody ever goes to a party until everybody gets there?"

All things come with the waiter who serves an order of hash.

Minard's Liniment for Backache

Puts Flavour into Home Cooking

Don't think of Mustard merely as a spicy relish to enjoy with cold meat.

Mustard is a seasoning to be used as widely as you use salt and pepper.

Mustard brings out the natural hidden flavours of cooked dishes and, adding its own flavour, gives them a new zest and relish.

Keen's Mustard
aids digestion

Fish For Prairie Lakes

Depositing Fish Fry in the Lakes of Prairie Provinces

Almost thirteen million whitefish and herring fry are being deposited in the lakes of the prairie provinces, according to advice received by officials of the Canadian National Railways. Into Jackfish Lake, near North Battleford, 2,800,000 whitefish and 200,000 cisco (herring) are being lodged; in Little Quill Lake and tributaries near Wadena, Sack, 1,800,000 cisco are being deposited, and in the Qu'Appelle lakes—Kesteven, Mission, Echo and Sioux—6,000,000 whitefish and 2,000,000 cisco are being cast.

Mother Graduates With Son

Mrs. A. Church, and her son, James Church, classmates for four years at William Jewell College, Liberty, Mo., have graduated. Mrs. Church, who was a grandmother when she entered college, kept house for her family throughout her course. Her object, she said, was to keep pace with her four children, in mental alertness, in order that they might not "drift away" from her.

MINARD'S Relieved His Rheumatism

Here is one of many letters testifying to the relief Minard's gives in cases of rheumatism. "I have been relieved of rheumatism by your liniment. I thought I would never be free from this malady and I tried many remedies, but Minard's was the only one which gave me relief." ALPHONSE RICHARD, St. Samuel, P. Q. Minard's is also splendid for stiffness of the joints, sprains, bruises, etc.

MINARD'S LINIMENT

Human Values

Norah Holland died in Toronto the other day; and the announcement was compressed in a paragraph. Yet Norah Holland was one of the finest and best beloved of Canadian poets, a sweet singer whose songs gushed from her heart, and whose work made life better and richer. We sometimes get strangely mixed in human values.—Ottawa Journal.

PAINS ACROSS THE BACK

Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steady all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back; I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSMANN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women to each other. Many women know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial. Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes." This means that 98 out of every 100 women are in better health because they have given this medicine a fair trial.

GLEICHEN, ALBERTA, WEDNESDAY

KEEP EVERLASTING AT IT

One blow of a hammer does not build a house. One
smashing advertising does not build a business. It
merely does its share. Each advertisement you publish
aims to stimulate the day's trading. And each day's job
well done, helps to strengthen the foundation of the busi-
ness for tomorrow and for all the future. Each adver-
tisement, in its turn, gives strength to the future record.
But to get these benefits advertising must keep on steadily
as you expect the business to keep on. To weaken in the
program because a few advertisements don't create a
reputation equal to that of a store which has been build-
ing prestige steadily year after year would be as foolish
as to stop work on a house because the first blow of the
hammer didn't do the whole job, from cellar floor to top of
chimney brick. The quitter rarely wins a race. "Keep-
ing everlastingly at it," in the words of one of the most
famous advertising slogans, "brings success."

BUSINESS OUTLOOK

Basic industries are expanding, employment is in-
creasing and there is continued confidence in good busi-
ness. Resistance to price advances is recognized as
widespread and in consequence the prospect of any pro-
longed rise in general price level is daily growing more
remote. Stiff competition and stable prices certainly offer
no promise of easy profits but the situation at last seems
to be one in which moderate forward commitments can
be made with fair assurance, a condition which has not
prevailed heretofore since the World War. The spirit of
artificial optimism so much in evidence a few weeks ago
has been largely eliminated and the outlook today is sat-
isfactory for all except those whose idea of good business
is the promise of speculative profits.

SHALL WOMEN SWEAR

On the other hand an anti-swearer comes across with
this compelling argument: "It just won't do at all because
it distorts the face. Causing must be done forcibly, to be
effective. This hardens the mouth, wrinkles the brow
and brings on premature age. An angry face is never
beautiful. Men have used strong language since the be-
ginning of time. That is why there are so few good look-
ing men." That should settle the question. On the face
of it, the negative wins. A representative of the swear-
ing sex can only offer, as a clincher, this modest adden-
dum to the argument: "With all men's swearing, at life
at fate, fortune, accident, misery, women and things in
general, what has it got them?"The lives of Chicago's children have been saved to
the extent of 30 per cent in one year because that city's
well-developed play grounds have kept them off the streets.
And with this percentage of decrease in automobile fatal-
ities due to one of the greatest of all social institutions—
the playground, we have had proven only one of the in-
cidental reasons for directed play among children. The
social and moral values of the modern equipped and sup-
ervised playgrounds fully justify their establishment; and
with the added preventative value in lessening accidents
to the little ones the argument is complete and beyond
dispute. And his obtains in the smallest town as it does
in Chicago or Montreal, or in Calgary; it holds good on
Crowfoot street. Nothing is too safe for the children of
world.The Fundamental-Modernist battle that is going on in
certain quarters indicates a wider cleavage than that of
one church denomination. Forces of the world are fast
lining into two great divisions, and many names are given
to either side. The two schools of thought find expres-
sion in the radical and conservative, progressive and reac-
tionary, flapperism and old-timeism, youth and age, liber-
alism and intolerance, the pace that kills and the simple
life. It is not difficult these days to find the school of our
choice, but it is rather difficult to find the consistent mid-
dle ground and stick to it.The flowers and blooms along the highways are
nature's contribution to the delights of mankind. The in-
dividual who takes or destroys these are displaying sordid
selfishness of which he should be ashamed. Our motor-
ists are all to free in appropriating these things that do
not belong to them.The man who builds a better mouse trap that the
world may beat a pathway to his door, must first let the
world know where his door is, by advertising.Businesses don't just happen. They come through
hard work, perseverance, honest goods, service, fair deal-
ing and advertising.

Gleichen Motor Co.

Authorized Ford and
McLaughlin DealersNow is the time to have your Ford put
in shape for spring. We are forwarding
to all Ford owners in this district a phamp-
et showing our flat rate labor charges..If you wish any work done you have
only to look at the chart and know exactly
what it is going to cost. If you do not re-
ceive one of these phamplets call or drop a
a line and we will be pleased to forward one
to you.We have at the present time some good
buys in second hand cars. It will pay you
to call and inspect these cars.

HENDERSON & MALLORY

Owing to the frequency of Farm Fires, the at-
tention of Farmers is especially drawn to the very low
rates charged for insurance of grain whilst stored in
barns or granaries. The result of a year's work is
often swept away in an hour, and every farmer should
protect himself by carrying a policy with

HENDERSON & MALLORY

Threshed Grain in granaries or barns may be written to
100 Per Cent. of Value.

Trouble Is Brewing Over The Strike At Nova Scotia Mines

Glace Bay, N.S.—Three office employees of the British Empire Steel Corporation were injured when officials who had been doing maintenance work at the New Waterford power station were forcibly removed from their stations by 200 striking miners.

As a result of consequent stoppage of work at the plant, the mines in Glace Bay and New Waterford districts are now flooding, and the town of New Waterford lacks light and water.

J. E. McLaugh, vice-president of the corporation, wired President Armstrong for police protection for officials working on maintenance shifts.

An exchange of wires between District President McLeod, of the United Mine Workers, and W. J. O'Hearn, attorney-general of the province, brought a declaration from Mr. O'Hearn that if the mine workers resorted to vengeance his department would take action.

District President McLeod sent a telegram to Hon. James Murdoch, minister of labor, again asking him to intervene and pointing out that "people living on 89 cents per week cannot forever be pacified in the face of hostile action of the Government of Nova Scotia."

Pooling Cattle Would Not Influence Market

Unless Flow of Livestock Could Be Regulated

Calgary.—Considerable information has been given by stockmen and others to the Saskatchewan livestock pool commission, which is in Calgary obtaining on the co-operative marketing of cattle.

The commission is composed of Geo. Langley, chairman; Edwin Evans, manager of the Moose Jaw stockyards; R. A. Wright, Drinkwater, Sask.; and W. Waldron, of the Saskatchewan department of agriculture.

Much of the information given the commission was to the effect that if the market costs were reduced by a pool, it naturally would be to the advantage of the producer. However, the opinion was expressed that the mere fact of pooling cattle would not influence the general market price of livestock, but it was admitted that if it were possible to regulate the flow of the livestock to market, a pool have a beneficial effect.

Good Field For Canadian Trade

West Indies Offer Great Possibilities Says H. J. Logan

Hamilton, Ont.—The West Indies provide a great field for Canadian trade, H. J. Logan, K.C., M.P., told the Canadian Manufacturers' Association at luncheon. Mr. Logan described his recent trip there to investigate commercial possibilities.

The business with the West Indies should be carried on, he said, if every other sea route were abandoned. Mr. Logan suggested changing the name of the Merchant Marine to the Canadian National Steamship Company.

Would Take Drastic Action

Advocates Deportation of Alien Criminals in Australia

Brisbane, Australia.—The need for the selection of immigrants, the deportation of every alien convicted of a crime, the advisability of keeping a record of all aliens in the Australian Commonwealth, and a more strict medical examination of newcomers, are suggestions made by T. A. Ferry, royal commissioner, who recently inquired into the social and economic effect of an increase in the number of aliens in North Queensland.

He expressed the view that the existence of foreign clubs in Australia is undesirable.

Linked Up With British

London.—His Majesty the King has approved the alliance of the Royal Canadian Dragoons with the First Royal Dragoons, and the Fifth British Columbia Light Horse, with the Fourth Queen's Own Hussars.

Seventieth Wedding Anniversary.—Peterboro, Ont.—Joshua Anderson, aged 99, and his wife, Mary, celebrated the 70th anniversary of their wedding June 4. Both are hale and hearty.

More than a thousand women doctors are now practicing in Japan under government license.

W. N. U. 1589

Retains Premiership

Hon. C. A. Dunning, Premier of Saskatchewan, whose Government was endorsed by the electors in the recent elections.

Dunning Government Has Big Majority

Liberals Gain Sweeping Victory In Saskatchewan Provincial Elections

Regina.—The final result of the Saskatchewan provincial elections, gives the Dunning Government fifty seats. The Opposition secured eleven seats, three going Conservatives and five Progressives. Two deferred elections in the north may increase the Government representation to 52. All members of the Provincial Cabinet were retained with the exception of the attorney-general.

GOVERNMENT TO HAVE MINISTER AT WASHINGTON

Ottawa.—The Canadian Government hopes to make the appointment of a Canadian minister to Washington very shortly. Premier King announced in the House of Commons, before the vote of \$60,000 for Canadian representation in the United States was passed by the commons.

The prime minister said that the government had not found it easy to secure the person it wanted to represent Canada and referred to the necessary expenses which went with such a post.

Mr. Henry Drayton, Conservative, South York, said it was an unnecessary duplication of the British ambassador's work at Washington, and asked if a like appointment for Paris was intended, or if not, why? The premier said the Paris office was satisfactory, but the late Sir James Bryce said Canada provided nine-tenths of the work of the British ambassador at Washington, including rum-running, smuggling, waterways, and ever increasing crime.

T. A. Cregar, Progressive, Marquette, criticized the government for not having made the Washington appointment long ago.

J. S. Woodsworth, Labor, Winnipeg Centre, supported the proposal for a minister at Washington. He believed, however, that \$60,000 was too much for this purpose. The vote was then carried.

Defeat Amendment For Higher Tariff

Big Majority Against Revision Suggested By Hon. Meighen

Ottawa.—By a majority of 110 votes, the House of Commons defeated the amendment moved by Right Hon. Arthur Meighen, Opposition leader, calling for an immediate revision of the tariff on a definitely and consistently protective basis. The vote stood: For, 37; against, 147.

Conservatives present voted solidly in favor of the Meighen resolution. Liberals, Progressives, Independents and J. S. Woodsworth, the Labor member present, voted against.

Arrested For Stealing Own Car

Washington, D.C.—William W. Kendrick was arrested for stealing his own automobile. He reported to the police that his car was stolen from in front of his home. Later he found it but neglected to report. He drove down town and a policeman, noting the license tag, arrested him. He was released after establishing proof it was his car.

Take Photographs

Niagara Falls, Ont.—Disguised United States coastguard vessels sailed up the Chippawa creek and took photographs of six boats alleged to be laden with whiskey for future reference.

BRITAIN KEEPING CLOSE WATCH ON AFGHANISTAN

London.—As a result of alleged Soviet attempts in 1918 and 1919 to penetrate India, through the valuable northwestern frontier, the British Government has been especially watchful of Afghanistan affairs. It has also maintained a strong defence at the frontier ports, since German attempts to enter India from Afghanistan and the northwest during the war.

The British Government has a treaty with the Emir of Afghanistan, in which the Emir promises not to allow Soviet agitators to enter towns within certain distances from the Indian frontier.

It is pointed out in London that an Afghanistan rebellion, instigated by foreign influence, could readily become a religious war and that would menace the greater part of India's population.

British observers have reported there is little possibility of any direct attack being made by the rebels against the British forces, but it is considered likely that the Emir will have to abdicate unless he is able to gather his supporters immediately and inflict decisive defeat upon the rebels.

Failed To Cheer Former Crown Prince

Berlin Crowds Resented Preferential Treatment He Received

Berlin.—The former Crown Prince of Germany enjoyed a few minutes of his pre-war glory again when he appeared at Tempelhof field to witness the aeroplane competition in progress there.

American newspaper men, on approaching to interview the pilots, were curtly informed that foreigners were not desired to investigate Germany's aeronautics. The crowds, which came to the field encountered everywhere the outspoken words or signs that said "verboten."

The former Crown Prince's review had all the earmarks of one of his old-time official appearances except that the crowds failed to cheer him and seemed to resent the preferential treatment he received.

Better Livestock Train

Now Making a Tour of the Province of Saskatchewan

Regina.—The "Better Livestock Train," operated under the direction of the Saskatchewan department of agriculture, will set out this week on a tour of the province in the interests of improved agriculture.

The train will be comprised of several carloads of pure-bred stock which will be used for demonstration purposes and which will be offered for sale, in addition to several lecture cars. Tree planting, fodder crops and marketing are some of the problems that will be explained and demonstrated in these lecture cars.

Alleged Red Plot In Balkans Bared

Movement Was to Spread to Other States

Berlin.—The Deutsche Zeitung claimed to have possession of a document, intended to be confidential, according to which M. Lewitzky, counsel of the Soviet legation at Vienna, is to take advantage of his diplomatic immunity and direct Communist activity throughout the Balkans. The Deutsche Zeitung said the plan was to "Bolshevise" Bulgaria first and then to spread the movement to other Balkan states.

To Deal With Rum Ships

Claim Most of Rum-Runners Fly the British Flag

Boston.—A call for reinforcements to deal with the growing rum row off Cape Ann and Boston Harbor, augmented by vessels driven from New York waters by the coastguard blockade, has been sent to Washington by the coastguard.

The line of the ships lying 22 miles off the coast has grown in recent days, first to eight and then to 12. Seven of the eight identified ships fly the British flag.

Act of Vandalism

Montreal.—The Montreal Star has offered a reward of \$500 for information leading to the arrest and conviction of the person who destroyed 17 new trees on the "Road of Remembrance" in Notre Dame de Grace, The trees, which were planted shortly after the war, were cut through about three feet from the ground. They were in memory of Canada's fallen.

Will Attend Convention

J. Macdonald, Editor and Proprietor of the Courier, Unity, Sask., and President of the Saskatchewan Division of the Canadian Weekly Newspaper Association. Mr. Macdonald hopes to have recovered sufficiently from his recent illness to attend the Annual Convention to be held in Winnipeg on June 24, 25 and 26.

Federal Parliament May Be Dissolved

Talk of Dominion Government Going To Polls in Fall

Ottawa.—Results in the coming provincial elections in Nova Scotia, announced for June 25, are likely to have an important bearing on whether there will or will not be a general federal election this year.

While there had been much talk of dissolving the Federal Parliament, the general impression has been that the Dominion Government would await the provincial elections before reaching a final decision. Should Nova Scotia, like Saskatchewan, again go Liberal, the feeling in political circles here is that the Dominion Government will go to the polls in the fall.

General provincial elections in New Brunswick are also due this year.

Germany Receives Allied Note

Document Deals With Failure to Fulfill Disarmament Requirements

Berlin.—The inter-allied note to Germany, detailing her failure to fulfill the disarmament requirements of the Versailles Treaty, was presented to Chancellor Luther by Baron D'Abernon, British ambassador to Germany, representing the allied ambassadors, who accompanied him.

Foreign Minister Stresemann was present when the note was delivered. In presenting the note, Ambassador D'Abernon said:

"I have the honor to hand Your Excellency, upon behalf of my colleagues and myself, a joint note from our respective governments on the subject of conditions for the evacuation of the Cologne zone."

CLAIM FOR U.S. LAND DISCOVERED IN THE NORTH

Provincetown, Mass.—Commander Donald B. Macmillan, when informed by The Associated Press of the report that Hon. Charles Stewart, Canadian minister of the interior, had told the House of Commons that Canada claims all lands north of the Dominion to the North Pole, said: "There is nothing new in that claim, although I have often wondered on what it was based."

"Any land which we discover on the expedition which is to start this month from Boston will certainly be claimed by us for the United States. We were told of Canada's claim when we left in 1913 on the Crocker Island expedition. We sailed for 150 miles across the Polar Sea and took from the maps land which had previously been shown on them, but we found none."

"This summer's expedition will seek land in a region lying partly north of the Dominion, but the greater part will be north of Alaska. If we find anything we shall claim it for the United States, and I think that the nations of the world will regard it as just."

Casualties In Jap Quake

Tokyo.—The casualties in the earthquake in the Tajima district north-west of Osaka on May 22 are now given as 208 identified dead and 494 wounded.

The houses destroyed numbered 3,793.

Arrows For Big Game

London.—Stewart White, an author, and Dr. T. Saxon Pope will attempt to hunt big game in British East Africa with bows and arrows.

Security Pact Is Believed To Be Now Nearer A Solution

Large Crowd Greeted Prince At Durban

Durban, South Africa.—One of the most enthusiastic of the many routing receptions the Prince of Wales has had during his tour of South Africa was given him here. On his way from Ladysmith, where he visited battlefields of the Boer War of 1899-1900, every way-side railroad station had cheering crowds. When he reached Durban, the streets were packed with people along the route he was to traverse. Formal welcoming ceremonies were conducted in the town hall square.

Canadian U.S. Trade Vital Factor To Both

Reciprocity May Become Burning Issue Says Washington Post

Washington.—In an editorial on Canadian trade, The Washington Post, which is close to the Coolidge administration, analyses figures given out recently by the Canadian minister of finance for the fiscal year ending March 31, and says trade between Canada and the United States is becoming larger and larger as "a vital factor to the prosperity of both."

It says reciprocity may yet become a more burning issue than was dreamed of in 1912 and intimates it would be a good thing for both countries. While the balance of trade is still in favor of the United States it predicts this will decrease as Canadian population and production increase.

The Post sees in the development of the Western Canadian provinces an invaluable "safety valve" for domestic manufactures and industrial products of many kinds.

Was Famous Scientist

Camille Flammarion, Noted French Astronomer, Is Dead

Paris.—Camille Flammarion, the noted French astronomer, is dead. Flammarion was one of France's greatest scientists and he spent 60 years of his life of 83 in an intensive study of the heavens. He was the founder of the famous observatory at Juvigny and of the Astronomical Society of France. He wrote many books on the subjects in which he was deeply interested and of which he had a comprehensive knowledge. His works include, "Marvels of the Heavens," "Popular Astronomy," and "Mysterious Psychic Forces."

In October, 1920, when in his seventy-eighth year, M. Flammarion married Miss Gabrielle Renaudot, who collaborated with him in the writing of some of his best-known works.

Flight Is Abandoned

Tokyo.—The round-the-world flight of Major Pedro Zanni, the Argentinean aviator, interrupted here last year, has been definitely abandoned owing to the fact that his aeroplane, damaged when he attempted to take off at Osaka on May 14, cannot be repaired. The upper wing was damaged beyond repair. The supply ships sent here from Vancouver, B.C., are being ordered back.

SUNDAY SCHOOL LESSON

JUNE 14

THE CHURCH IN ANTIOCH

Golden Text: The disciples were called Christians first in Antioch. Acts 11:26.

Lesson: Acts 11:19-30.

Devotional Reading: Isaiah 12.

The Text Explained and Illumined

Good Out of Evil, verses 19-21. Luke now looks backward in his narrative. Recalling the trouble that arose after the stoning of Stephen, he tells us that it resulted in his disciples being scattered abroad. "The persecution turns out to be a missionary society unconsciously organized by the foes of the new faith" (Dr. Lynn H. Hough). The persecuted disciples fled to Phoenicia and the island of Cyprus and Antioch in Syria, and everywhere they preached to the Jews and won new converts. "The blood of the martyrs is the seed of the Church."

Some of the disciples who went to Antioch were Greek-speaking Jews, natives of Cyprus and Cyrene, whose residence among Gentiles had made them more liberal than were the Hebrew-speaking Jews of Palestine. These humble and unlearned disciples took a great forward step in the history of the Church—they preached to the Greeks at Antioch also, telling them about the Lord Jesus.

World's Finest Wire

Washington.—The finest wire ever made, so slender that it cannot be seen without a microscope, has been manufactured by a physicist in the department of agriculture.

Paris.—The French reply to British observations regarding the proposed French note to Germany, answering the latter's suggestions for a Western European security pact, has been sent to London.

It was said in official circles that the matter is considerably nearer a solution. The French have tried to meet some of the British objections and believe an agreement is in prospect. After a cabinet meeting, at which the note was discussed, Foreign Minister Briand said France and Great Britain were agreed in principle, but that a number of details remain to be settled. He expressed the belief that an agreement will be reached and the note sent to Germany soon after the meeting of the League of Nations, which commences at Geneva this week.

The previously expressed British attitude regarding Germany's security pact proposal, is that the pact should be confined to Western European frontiers. France has desired Eastern European frontiers to be taken into consideration.

Foreign Minister Briand plans to take the opportunity during his attendance at the League of Nations' council, in Geneva, to discuss with the British foreign secretary, Austen Chamberlain, the Allied reply to Germany's security pact proposal.

Daughters Of Empire

War Memorial Fund Has New Mounting To Large Figure

Ottawa.—The war memorial fund of the Imperial Order Daughters of the Empire has mounted to \$382,806, according to the treasurer's report submitted at the organization's annual meet here. Strong financial standing was indicated in the report made by Mrs. J. U. Power, of Toronto. The order's balance, which includes the large war memorial fund, stands at \$403,742. The year's receipts totaled \$75,513. The war memorial fund was increased by \$53,294 in the year. Scholarships and bursaries from this fund cost \$18,262. Total disbursements for the year were \$40,195. Thirteen chapters were added during the year, the honorary secretary, Miss A. Stewart Galt, of Toronto, reported.

In Memory Of Statesman

Will Mark the Boyhood Home of Sir John A. MacDonald

Ottawa.—The council of Adolphus-town, Bay of Quinte, will erect a simple signboard at the side of the boyhood home of Sir John MacDonald, Canada's first premier, and strew flowers about the spot, according to Allan Ross Davis, of Toronto, one of the prime movers in the event.

"It is hoped that this first public recognition of that boyhood home may prove the beginning of a national interest which may result in the erection of a lasting memorial," Mr. Davis stated.

To Accept Wage Cut

Reported That Lethbridge Miners Will Return to Work

Lethbridge.—Lethbridge miners voted three to one to go back to work. The vote of the local camp was 264 to 99 to accept the wage cut, which is about six per cent. for contract men and about thirty per cent. for day wage men.

An independent local union has been formed, known as the Lethbridge Miners' Federation, breaking away from the United Mine Workers of America.

Proposed Wagon Road For Gold Area

Vancouver.—Hon. William Sloan, minister of mines, and Dr. W. H. Sutherland, minister of public works, have left here for Stewart and the Portland Canal district, on a trip of inspection. It is possible a wagon road from the head of the Portland Canal right through to Dease Lake in the Cassiar district, which is the scene of a gold rush, may result from their visit.

King Ethelbert's Tomb

London.—While engaged in excavation work in connection with the restoration of Sherborne Abbey, workmen discovered the coffin of King Ethelbert, who died in 865 and was buried in the abbey in 866. The coffin was made of stone, and contained the bones of the king of the West Saxons.

World's Finest Wire

Washington.—The finest wire ever made, so slender that it cannot be seen without a microscope, has been manufactured by a physicist in the department of agriculture.

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Edward Grigg, Liberal member of the British Parliament and former private secretary to Lloyd George, has been appointed governor of Kenya.

All the defendants in the trial growing out of the assassination last November of Sir Lee Stack, Sirdar of the Egyptian army, were found guilty of murder.

The Toronto Women's Liberal Association has passed its objective for the Laurier memorial scholarship fund. The association undertook to raise \$4,000 and has collected \$4,161.

Prince Charles of Belgium has resumed his duties as sub-lieutenant in the British navy after a leave of several months at home. He is now in his 22nd year.

The minister of war has issued orders for the immediate discharge of the additional troops which Bulgaria had recruited. This is due to the refusal of the ambassador's council to permit their further retention.

The Duke of Devonshire, who was governor-general of Canada from 1916 to 1921, celebrated his 57th birthday May 31. He has recovered from the illness which befell him in Ireland some time ago.

Finance Minister de Stefani has announced to the Chamber of Deputies, Rome, that the banking firm of J. P. Morgan and Company had granted a credit of \$50,000,000 to a consortium of Italian banks to be used to stabilize exchange.

Second and third reading was given in the house to a bill amending the Canada Evidence Act, permitting the crown on a prosecution for perjury to use against the accused any evidence given by him in any other proceeding.

The British Legion conference has passed a resolution in favor of compelling employers to employ disabled ex-service men wherever possible, and in favor of preventing the displacement of ex-service men by female clerical assistants in government offices.

Italy's Prospects Are Bright

Country Is Prosperous and People Healthy and Happy

Italy is now one of the most prosperous of European countries. She has neither steel for wars nor coal and iron industry, but she is a healthy, happy and prolific people.

Her population increased at the armistice by 2,000,000 from Austria-Hungary, is now equal to that of France. The birth rate is 31.3; the death rate is 19.2. Italy is increasing, therefore, at the rate of more than 400,000 a year.

France's figures are "a few of stagnant waters"; Italy's are the rushing of a river in rocky mountains. If France's future in figures fills her admirers with apprehension, it is apprehension that Italy's prospects inspire in her rivals. —Robert Sencourt in Atlantic Monthly.

Canadian Banking System

Very Superior to U.S. in Spite of Recent Failures

There were 45 bank failures and 1,339 commercial bankruptcies in the United States in April. Probably most of the banks were small local concerns, but the depositors and shareholders do not suffer the loss for that reason. With the Home Bank crash in mind Canadians may not boast too loudly of the superiority of their banking system, but it has since been buttressed by a government audit system, and on the score of stability there is something to be said for institutions the size of the Canadian chartered banks. —Toronto Globe.

Was Noted Explorer

Dr. Alf. S. Johnson, Canadian Scientist, Is Dead

Dr. Alfred S. Johnson, native of L'Orignal, Ont., aged 61, noted in scientific research and exploration, died at Chicago recently. He was a Fellow of the Royal Geographical Society, founder and for many years editor of "Current History." Dr. Johnson later achieved distinction as managing editor of "The Technical World." Besides many trips to the Arctic, Dr. Johnson was a member of the 1905 government expedition to Labrador and spent much time on the study of a route from Hudson Bay to Europe.

The superior durability of some woods is due to substances that are poisonous to wood rotting bacteria and fungi.

Less fish is being eaten in Great Britain than before the war. The per capita consumption from 1907 to 1910 was 41 pounds. Now it is 38.

W. N. U. 1580

Heligoland Has Been Disarmed

Equipment Cost Germany \$85,000,000 and 24 Years Work

Inhabitants of this little wind-swept island which has been converted from the status of a fortress and submarine base to that of a peaceful district of fishfolk, who follow entertainment of summer visitors as a side line, have been wondering of late how the great change which has taken place here is going to affect their business. The outer entrance to the harbor has been completely blocked, as part of the scheme of dismantlement, and rendered useless for all but fishing smacks and small pleasure boats bringing summer tourists from the continent.

The work of demolition, carried out under the peace terms by the inter-allied commission of control, is said to be the largest task of this kind ever attempted, and with the blocking of the harbor entrance against warships of all kinds the job has been brought to a conclusion. While this work was in progress great numbers of visitors arrived from spring until fall to witness the different phases of transmission, but with the blasting away of the fortifications at an end, the great guns taken down and melted into peace-time implements, the inhabitants feel that the public generally will lose interest in this one-time island arsenal which the Germans took 24 years to equip at a cost of approximately \$85,000,000.

Build Amphitheatre

For Christ's Coming

Religious Order Raises \$60,000 For Building in Australia

In order to wait for the second coming of Christ, 2,000 members of the Order of the Star in the East have built an amphitheatre at Balmoral Beach, near Sydney, Australia, says the London Express correspondent. So deep is their belief that this return is imminent, preparations have been made at the cost of \$60,000, raised by enrolling members of the order who subscribed from \$50 to \$500 per cent.

While the order's belief is that Christ will return in human form, it is expected he will arrive at the amphitheatre by walking on the water from South Head, at the entrance to the harbor to Balmoral.

The amphitheatre will contain a small model of a Greek theatre which will be used for the staging of Greek drama during the waiting period, as even the most confident member of the order will not say just when the second coming is to take place.

War Correspondent Is Dead

Lieut.-Col. Repington, Famous Journalist, Succumbs to Apoplexy

The death of Lieut.-Col. Charles A. Court Repington, at Hove, Eng., where he succumbed to an attack of apoplexy, removes from the fields both of journalism and arms an outstanding figure. He will be remembered particularly for his work as military expert for the London Times and the London Morning Post, during the war with Germany, and for the part he took in revealing the shortage of munitions on the western front in the early part of the war, and the failure of the various recruiting schemes subsequently. He was born in 1858.

Jazz Invades Jerusalem

Wireless On Mount of Olives Supplies London Concert

Jazz has invaded Jerusalem. During the visit of Lord Balfour to Palestine in connection with the opening of the Hebrew University, members of the Balfour party heard concerts nightly as they were broadcast by the London radio station.

A British wireless fan fitted up an aerial on the Mount of Olives, especially for the Balfour visitors, from which a line was extended to the government house occupied by English officials which enabled them to enjoy the London programme, part of which always consists of jazz as played for dancing by the Savoy orchestra.

Obeyed Instructions

"And how's Mike today, Mrs. Flanagan?" inquired the doctor. "Faix, an' he's dead, sorr." "Dead?" said the horrified medico. "Never! Did you give him that powder?" "I did, sorr. Yez told me to give him what 'ad go on a sixpence, an' as Oi didn't have a sixpence Oi didn't Oi didn't have a sixpence Oi give him what wint on six pennies, sorr, and the funeral's tomorrow, sorr."

Japanese Faith

Japan has its shortcomings, just as every other nation has, but it never yet has failed to live scrupulously up to the agreements it has made with this country. Its record is a record of good faith. The efforts by the Soviet agents to stir up suspicion between America and Nippon ought not to be dignified by serious discussion. —Detroit Free Press.

Gift Of Late Prime Minister

Stanley Baldwin Set Aside Fifth of Fortune For Nation in 1919

Wickham Steed, who is usually exceedingly reliable as to his facts, in an article in the London Review of Reviews has cleared up one of the mysteries of the post-war reconstruction period.

He brings out the fact that the present prime minister, Stanley Baldwin, was the patriot who announced on June 24, 1919, in a letter to the London Times that he had put aside a fifth of his fortune in view of the urgent needs of the nation. The amount happened to be the substantial one of £120,000.

The identity of the donor would probably never have been revealed to the public had it not been for the fact that Mr. Baldwin, who was then financial secretary of the treasury, had signed the communication with the initials "F. S. T.," which aroused suspicion.

In one respect Mr. Baldwin's gift was unsuccessful. He had expressed the hope that a large number of the well-to-do would follow his example, but very few did.

If he had signed his own name and it had been known that later on he would be chancellor of the exchequer and then prime minister, it is quite certain that some persons with their eyes on the House of Lords and other forms of advancement would have come across handsomely. —New York Mail-Telegram.

Canada Claims Northern Islands

All Islands North of Dominion Right Up to the Pole Are Included

A commission which reports from time to time to the government, engaged in investigating Canada's title to the islands north of this continent. As indicated by Hon. Charles Stewart, minister of the interior, in the House of Commons, Canada claims all the islands which lie north of the Dominion between Alaska and Greenland right up to the North Pole.

Canada, it is stated, is quite willing to concede the claim of other countries to territory lying directly to the north of them, and therefore does not claim Wrangel Island, which is off the northern coast of Russia.

The commission which is investigating the title to the northern islands has, it is stated, prepared a map delineating the boundaries of the territory claimed by Canada. It is now engaged in establishing the title of this country to all the territory claimed.

Declares Radium Is Not Cure For Cancer

Nothing Discovered Yet That Will, Says New York Doctor

Radium as a cure for cancer was repudiated by Dr. Francis C. Wood, of New York, in addressing the American Medical Association section on pathology and physiology in its closing session. In fact, Dr. Wood admitted that up until the present no cure had been discovered for the dread malady.

There was an era of intense enthusiasm about the use of radium in cancer treatment, Dr. Wood said. It was believed that it would cause cancer to disappear. That era of enthusiasm, it seems, is going rapidly, because radium only destroys tissue within a certain radius. It does not drive cancer from the human body.

Many English Girls Arrive

Population of Western Canada Augmented By 6,000 During May

The domestic servant problem in Winnipeg has been materially relieved by the arrival of a batch of English girls who were included among the large quota of settlers arriving during the past few weeks.

While the majority of these domestics have remained in Winnipeg, a number have proceeded to different points in the west. The girls were brought to Canada under the auspices of the Salvation Army.

Statistics show that the population of Western Canada has been augmented by more than 6,000 newcomers during May, the majority immigrating under the British Empire colonization scheme.

New Marriage Laws

Three clear days of the date of issuing of marriage licenses will be required before the marriage can take place in Ontario under legislation which goes into effect at once. The measure is designed to prevent hasty marriage. A penalty of a fine of not more than \$100 is provided for those solemnizing marriages within three days.

When a man is conceited that is about the only satisfaction he gets out of life.

Wise men always know more than they tell, but fools always tell more than they know.

ECLIPSE FASHIONS
Exclusive Patterns
by Hestie Dayne

Smart and Effective Model, Quickly Made

It may be made into an elaborate costume slip for the best dress or into a petticoat; trimmed in such a variety of ways. Front of this garment is cut in one piece, slashed in and gathered at sides to give the necessary fullness; back is cut through at the waist with the gathered skirt attached. The small back view shows the garment with round neck and shoulder straps, also the bottom scalloped and buttonhole-stitched. The front view gives another suggestion, the same model cut straight across below the arms in camisole style, straps of ribbon or lace attached and daintily finished with hemstitching and lace edging. Girls' semi-fitted princess petticoat No. 1017 cut in sizes 6 to 14 years. Size 12 requires 2 yards material 36 inches wide.

British Firms Get Contract

Combined Resources to Compete With German Syndicate's Figures

An important contract involving £100,000 has been captured from Germany by two British metal firms. The contract is for the supply of oil well casing to the Anglo-Persian Oil Co. A German syndicate quoted figures 30 per cent. below the British companies tendering separately, whereupon the Anglo-Persian Oil Co. conferred with the British firms, as a result of which the latter agreed to combine their resources. They were then able to compete with the figures of the German syndicate, and were awarded the contract.

New Difficulty For Burglar

Safe Screams When Touched By Unauthorized Hand

Mr. R. C. Whittingham, a young inventor from West Bromwich, has just brought out a new device which will add to the difficulties of the burglar.

It is nothing less than a safe which screams as soon as it is touched by an unauthorized hand, and goes on screaming for four hours or until someone who knows how to stop it comes along.

The scream is set in motion by delicate and secret mechanism connected with a vigorous motor-hooter, and is loud enough to arouse the entire neighborhood within a radius of a quarter of a mile or more.

Looks Were Deceiving

"What's the fare?" inquired the woman of the taxi-driver, as the conveyance stopped at her destination.

"Two dollars, mum," was the prompt reply.

"Well, here's a dollar and a half, my man—I'm not such a fool as I look."

"No," said the driver. "I wish you were, mum."

Probably Not

An explorer says Esquimaux never spank their children. We presume also that Esquimaux children never write their names in blue pencil on the newly decorated living-room walls. —Detroit Free Press.

A Dangerous Shipment

New York Zoo Receives Assortment of Poisonous Snakes

The worst assortment of poisonous devilry yet to arrive in this country has been taken safely from a Brooklyn dock through New York streets to the Bronx Zoo in trucks and with armed guards.

African vipers, with squat, ugly heads as broad as a man's hand; four boomstangs, nine feet long, slender as whips and as quick as lightning; cobras, thirty feet long, which spit venom; and eighteen green mambas, the deadliest and most vicious reptiles in the world, were included in the consignment. They were caught in African by J. L. Buck, of Trenton, N.J.

At the zoo four keepers who transferred the snakes wore glasses to safeguard their eyes from the streams of poison the big cobras ejected.

One of them had a narrow escape when a grand cobra shot its venom fifteen feet, missing the keeper by a foot.

Entente Cordiale

On Alaskan Border

Stewart, B.C., and Hyder, Alaska, Townspeople Universally Friendly

An unusual bond of friendship exists between the residents of Stewart, B.C., and those of Hyder, Alaska, a mile and a half apart.

When a Hyderite desires to partake of liquor he walks to Stewart, B.C., and when residents of the British Columbia town want duty-free tobacco they go to Hyder.

Dances, concerts, picture shows and lodge meetings are internationally patronized in both towns. Funerals, wedding and political problems concern both communities equally.

May 24, a Canadian holiday in honor of Queen Victoria's birthday, all Hyder citizens go to Stewart. July 4, Stewart folk celebrate American independence at Hyder.

Says Radio Caused

Loss Of Dirigible

Professor in Tokio University Investigated Disaster of SS3

Dr. T. Terada, science professor in Tokio University, says that the destruction of the dirigible SS3 last March with the loss of her crew, was caused by a broadcast radio wave.

Dr. Terada was a member of the board appointed to investigate the explosion, and after it had ended its labors without finding a theory, he continued his experiments. Coating a miniature of the airship with the aluminum paint that was used on the SS3, he found that radio waves directed against it produced sparks measuring nearly an inch, and while he has not fully disclosed the nature of the experiment and its results, he expresses his conviction that he has found the cause of the disaster.

Firms Increasing

Number Employed

Statistics Show Expansion Much Larger Than Recorded Last Year

Further and pronounced improvement in the employment situation, says the bureau of statistics, was indicated on May 1, when 5,923 firms reported that they had increased their working forces by 31,582 persons. This expansion, which to a considerable extent represents seasonal activity, is on a much larger scale than that recorded on May 1, 1924. The index number rose from 87.2 on April 1, 1925, to 90.8 on the date under review, as compared with 91.8 in 1924.

Act Of Courtesy Gains A Legacy

Old Lady Did Not Forget Kindness Of Conductor

Conductor 975 of the Capital Traction Company, Washington, D.C., known to his family and a few friends as James Gray, left his car several years ago and went over to the curb to escort an old lady aboard, and when she got off he helped her to the curb again. Recently he received a letter from Miss Annie Ward, of Cincinnati, saying that her mother, Mrs. Mary Ward, had died and left him \$4,000 because of his courtesy. It was so unusual that she never forgot it.

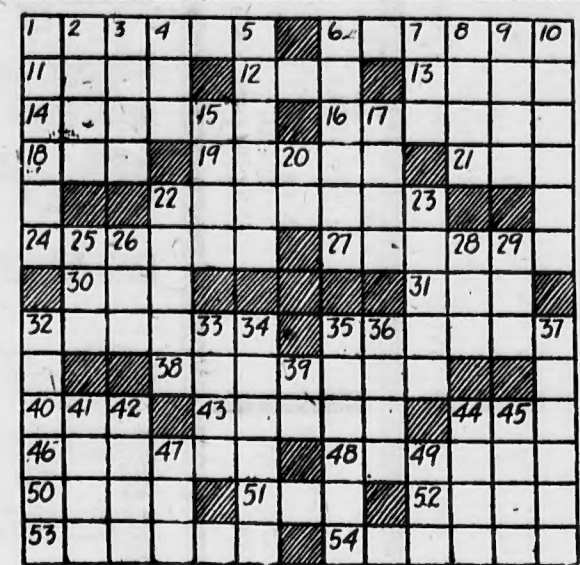

Many Girls From Overseas

Over 1,800 girls entered Canada from the United Kingdom to take up household work during the fiscal year ended March 31st, 1925, according to the supervisor of the women's division of the department of immigration and colonization.

A loaf of bread, said to be the largest ever baked, was made recently in Minneapolis. It was 60 feet long and contained more than 400 pounds of flour.

Many of the West Virginia coal mines are situated on hills.

Doughhobor Pupils

Again In Revolt

Insist On Being Allowed To Sing Russian Hymns

Doughhobor children attending the Columbia school at Grand Forks, B.C., have refused to repeat the Lord's Prayer as requested each day by the teachers on the ground that the curriculum should include only the three R's and the singing of Russian hymns.

A delegation of Doughhobor mothers backed up the action of the children and invaded the school to press their claim for singing of the hymns, some of which, school officials said, were interminable.

The Doughhobors recently refused to send their children to provincial school, but after the courts fined several parents, they promised to send all the children and left the schools overflowing.

German Soldiers Tire

Of Military Routine

Get Despondent Before Twelve-Year Enlistment Is Ended

There were 100 suicides in the German army a year during 1923 and 1924, and the authorities, investigating causes, lay the blame largely to the long period of enlistment, 12 years, prescribed by the Treaty of Versailles. Soldiers get despondent at the end of four or five years, it is pointed out, when they are not made non-commissioned officers. Naturally the number of such commissions is limited. Those who are not selected see ahead of them only eight more years of drudgery.

On the other hand, men who serve out the full 12 years are given preference in the allotment of civil service positions, which means that they are practically taken care of for life.

Saskatchewan Butter

During the first quarter of this year the output of creamery butter in the province of Saskatchewan amounted to 1,917,951 pounds, compared with 1,683,839 pounds for the corresponding period of 1924, an increase of 13.9 per cent., according to a report issued by the provincial dairy commissioner.

Nelson Wants Carnegie Library

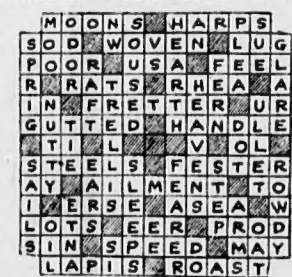

Although Nelson, 16 or 17 years ago, scornfully turned down a proposal for a Carnegie Library, times have changed and the municipal library board decided to get in touch, through Vancouver, with the Carnegie Foundation, to investigate the terms on which grants are obtainable.

Ought To Know Better

When a man from Iowa accuses the King familiarly in public, it is considered humorous, but when an Englishman does it, it is considered impertinent, because he is supposed to know better. —Toronto Daily Star.

The world's longest railway platform has been created by the joining of the Victoria and Exchange stations at Manchester. It is 2,175 feet.

Answer To Last Week's Puzzle:

American House For

Exhibition In Paris

Completely Furnished Home Will Be Shipped To France

A model American home of ten rooms and three baths, built and completely furnished in New York, will be shipped to France and set up in the Grand Palais at Paris as a part of the American section of the international exhibition of household and labor saving devices, October 22 to November 15, it was announced by Arthur Williams, vice-president of the New York Edison Company, who has been chosen president of the American section of the exhibition. The house will be an American gift to the French department of public instruction under whose auspices the exhibition will be held.

U.S. Criminal Law

Says That Need Exists For A Radical Change

Ellhu Root says that a need exists for an immediate and radical change in American criminal jurisprudence. Chief Justice Taft has been quoted as saying that the administration of the criminal law was a national disgrace. A committee of the American Bar Association has said much the same thing. Let's see. What was it that Mark Twain said about the weather? Something to the effect that everybody talked about it, but nobody did anything. —Boston Transcript.

The Handbook Again

The Dominion Government will make another attempt to deal with the handbook nuisance. The measure will probably encounter the usual opposition, not only from interested persons, but from those who object to this kind of legislation as interfering with the pleasures of the people. Unless losing money to profiteers of the worst kind is regarded as a pleasure, the latter objection has no weight. —Toronto Globe.

Holiday Thoughts

Husband.—No, dear—we can't go to Brighton—we must think of all the bills we owe.

Wife.—But can't we think of them down there, dear?

In some parts of Alaska zero temperatures never have been recorded and during the summer almost tropical heat prevails for a few days.

Mixed Farming Pays —and Pays Well

EAST or West, it has been proved that mixed farming is the most profitable and self-sustaining type of agriculture. Risks of a bad season are distributed and minimized in both production and marketing. Crop rotation and fertility are simplified. Overhead charges are more evenly divided and all waste can be utilized. Mixed farming will give the farmer the best return for his investment.

TOWN AND DISTRICT

R. S. McQueen's father has arrived from Ontario to visit him.

Mr. and Mrs. F. O. Detter of La Verne, Calif., arrived in Gleichen on Tuesday.

The good work of cinderling the streets continues and is making a wonderful improvement.

Mrs. P. Maclean has returned home from Calgary, where she has been undergoing treatment for rheumatism and her friends will be pleased to know she is somewhat improved.

Mr. J. B. Ostrander visiting his son, Pember, at Edmonton, before the latter leaves for Saddle Lake Agency near St. Paul De Metis, where he has been appointed Indian Agent. He returned home Monday afternoon.

In the "Side Show of Life" coming to the Community Hall June 27th, you will see a real circus performance, experience all the thrill of the real thing just as you would if the big show itself were to come to town. A picture for old and young. Don't miss it.

There was a reunion of old-timers in Gleichen Tuesday night, when Messrs. Mike Brown of Carleton Place, Jimmie Bell of Chancelor; Saul Hogg of Red Deer and Roy M. Allen of Milo drifted in. Would you believe it? Saul could not tell one new story.

The All Blacks are arriving in Gleichen for training and soon will be wearing Bosch's best and hauling Bogoties tanks. The 36 blacks are all beauties and Slim Moorehouse will soon have them in fine trim. Glen House may well be proud to own such a fine string.

A safety razor is an instrument to make us appreciate lying in a barber's chair.

TRAIL RANGERS CAMP

Registration for Camp Nisaki at Jumping Pound are now being received. Several boys of the local group are arranging to go. The camp will be under the supervision of the Provincial Boys Work Board, dates July 18th to 22nd. Trail Rangers will of course be accommodated first. There will be room for a limited number of boys who are not members. Seven dollars will cover the entire cost of the ten days camp for each boy, plus fare to Calgary. The camp is inter-church and will be in the care of boys camp experts. Raise the price and send the boys.
